

Installations and Relocations

Dürr Megtec engineers and contractors provide professional installation services. Our capabilities range from contractor supervision to complete turnkey installation on projects of all sizes. We work with our clients from the start of the project through commissioning to provide a trouble-free installation that is within your budget. Whether your installation involves new equipment or if you need to move existing equipment, we can help.

The following are just a few examples of the services we provide:

- Rigging and assembly
- Duct system design and engineering
- Fabrication and installation of ductwork (galvanized, stainless steel, carbon steel)
- Insulating and cladding of ductwork
- Concrete work
- Structural steel work
- Gas and air piping
- Full electrical installation services (controls, interlocks, power)
- Process interface (electrical and mechanical)
- PE-approved drawings
- Project management services
- Full equipment relocation services
- Downtime planning and coordination
- Design and installation of Permanent Total Enclosures (PTE), hoods and capture systems
- Contractor supervision
- Turnkey installations
- Ductwork and equipment platforms
- Projects of all sizes
- Upgrade to current codes
